

Hello everyone

It's been a great week in school with lots going on. It was lovely to see parents at our 'Get to Know You' meetings and I know teachers valued this opportunity to meet and talk to so many of you. Other highlights of the week were the SKATEBOARDING workshop which lots of children enjoyed and a puppet show which year 3 loved watching, as part of their enquiry. Ask your children if they were involved!

You can also see some great pictures on our updated facebook page or on twitter: [@HannahMorePri.](#)

Parents' courses started this week as well, and it was great to see the community room buzzing with different classes. Full details of parents' activities are on the website.

A reminder to parents of Year 6 children - now is the time to be visiting secondary schools and thinking about applications. Your online application MUST be done by 31 October. Khalif can help on Thursday mornings from 9.00-10.00. We are also welcoming parents thinking about Reception places for 2020. If you have friends who would like to look around school, please ask them to contact the school office for details of our upcoming open mornings.

We were delighted to receive a wonderful donation from the PTA this morning! We are so grateful for this support and will keep you posted about what we decide to use this money for!

Can I remind everyone to be in school by 8.40am, when the whistle is blown. This means we can start our learning promptly at 8.45. Thank you for your support.

Have a lovely weekend,

Daniel Webster,

Deputy Head

Today we sadly say goodbye to Carol who is our Year 2 BFG Class LSA. Carol has worked at Hannah More for nearly 5 years, starting as a Teacher and more recently a Class LSA. She is much loved by all the staff and children and we wish her every happiness in the next chapter of her life but we will certainly miss you!!

Year 1: Abdullahi and Abdiazeez

Year 2: Issa and Maid

Year 3: Asma and Narmin

Year 4: Avishae and Abdullahi

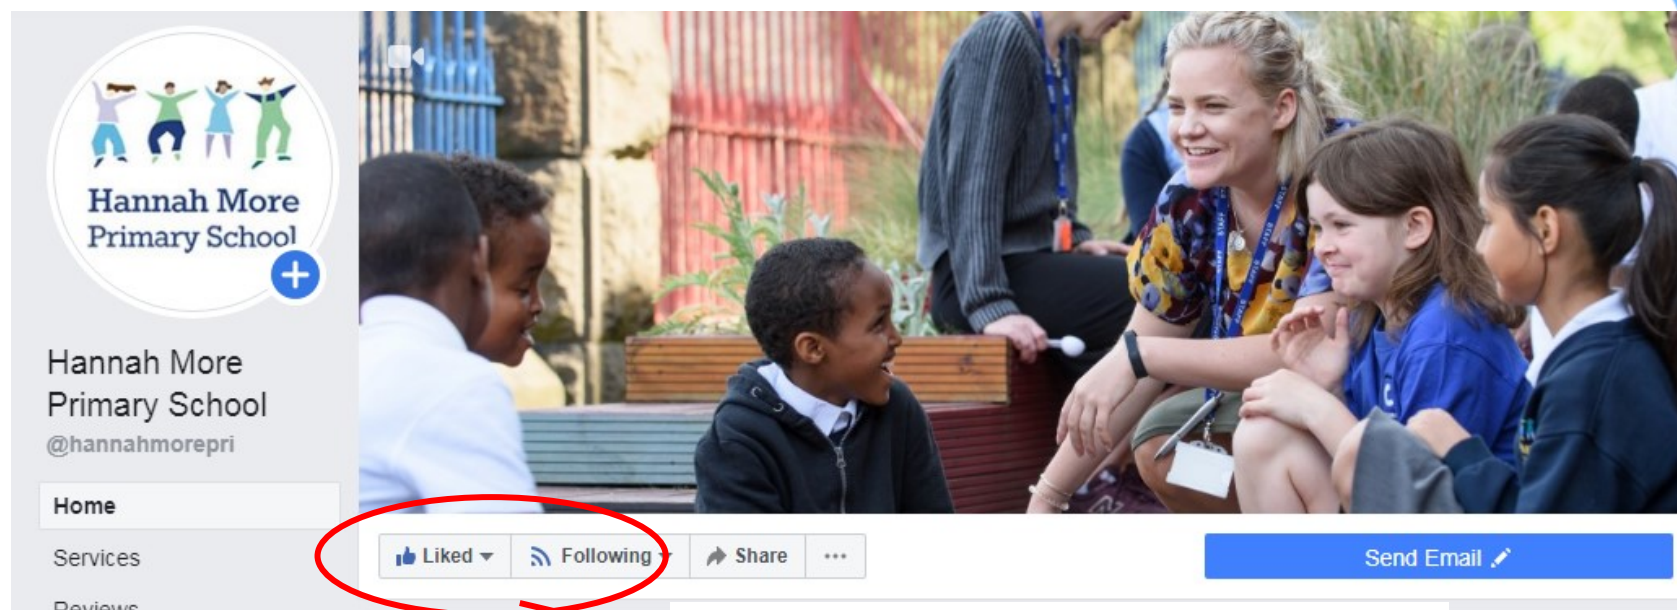

Year 5: Ibrahim I and Faizaan

Year 6: Abdulahi Ali and Morino

What I've learned this week...

Find your child's class below to read about what they have been learning this week and how you can help them at home!

Year 1

We learnt to count objects and represent objects to 10 in different ways. We also read our new book; Avocado Baby. We tasted avocado, acted out the story and created actions for it. At home, read with your child every day for 10 minutes. Practise counting and writing numbers to 20 the right way round. Ask them about our new class story Avocado Baby.

Year 2

We started a new book – Pattan's Pumpkin and acted out the story using props. As mathematicians we have been working out 10 more and 10 less of a number. At home, read with your child every day for 10 minutes. Practise counting and writing numbers to 100 the right way round. Ask them about their new story Pattan's Pumpkin.

Year 3

We started our new enquiry 'Where does darkness come from?' We explored light and dark through science investigations and even watched a shadow puppet show! As writers, we described settings from our story Rama and Sita. As mathematicians, we learnt the value of digits in 3 digit numbers! At home, read with your child and ask them questions about the book they are reading. Encourage your child to practise their times tables.

Year 4

We started our new text 'Frogspell', which is all about witches and wizards. To go along side this we made our own magical poems that will put a spell on you! In maths, we practised and revised our rounding rules and learnt all about roman numerals. At home, help your child to practice their times tables.

Year 5

We began our enquiry; Who is trading with whom? As historians and geographers we will discover the history of our area and what was made there in the past. We began reading 'Time Travelling with a Hamster' by Ross Welford and wrote setting descriptions. In maths we focussed on number and place value. The highlight of the week was our skateboarding workshop which we loved! At home, please help by reading every day for 10 minutes practising times tables up to x 12.

YEAR 6

This week as mathematicians we explored what one million looks like! We enjoyed the first two chapters of our book: Beetle Boy. We began to understand some of the key characters. As scientists, we researched how different animals are adapted to their environment. At home, please make sure your child reads their book and practises their times tables every day!
