PRIMARY SCHOOL

*Nurturing self-belief  
Inspiring success*

# **Our School Values: A guide for Parents and Carers**

**We have introduced these values at Hannah More to help us to work together, to be the best we can.**

- Our values are what we believe in. They are the really important things that we want for our community. They are what makes our school different and special.
- Our values help us to decide how we teach and help children to learn and grow. They help us to treat each other with respect and to learn from one another. They help us to succeed as part of our school community.

**We have 5 values:**

**Determination, Openness, Nurture,  
Enjoyment and Respect.**

<b>Determination means ...</b>	... 'sticking at it' and producing our best work even when the going gets tough. Determination means having high expectations and wanting the very best for our children.
<b>Openness means ...</b>	... creating a warm welcome for all our children and families; communicating well with each other and being receptive to new ideas.
<b>Nurture means ...</b>	... caring for everyone in our school so they do the very best they can. Nurture means looking out for each other and supporting each other.
<b>Enjoyment means ...</b>	... getting satisfaction and excitement from all our learning and achievements, and from being part of our school community.
<b>Respect means ...</b>	... understanding each other, always being courteous, and showing that we care about and value others from different backgrounds.

**We want everyone at Hannah More - children, staff, parents, carers and the wider school community - to understand and share these values and to help us to develop, grow and succeed as a school community.**

**If you would like more information about our values and our vision, please ask a member of staff.**
