

EQUALITY OBJECTIVES 2021-2024

Hannah More Primary School is committed to

- Eliminating discrimination, harassment and victimisation
- Advancing equality of opportunity within our school and the wider community.
- Fostering good relations and promoting positive attitudes to differences between people of different backgrounds, genders, sexual orientation, ethnic origins, cultures, faiths and capabilities.

Based on the school's characteristics and the current development priorities, equalities objectives for 2021-2024 are:

- To further raise the attainment of Pupil Premium children who are at risk of slow progress. This will happen by ensuring teaching is engaging and that teacher subject knowledge is good. Alongside this, to monitor and improve attendance of these targeted children.
- To improve progress of children with SEN, establishing clear and meaningful progress measures. Progress will further improve because of improved communication and a coordinated approach to learning between teacher and specialist staff.

The leadership team and Governors will review the equalities targets annually
